

Fourth Grade - Soaring to Success

February 2, 2018

Book Project

Just a reminder that book projects will be due on Wednesday, February 28th. Please encourage your child to start working to impress the class!

Arabic

Book 1:

We used the new vocabulary words in forming new sentences and making conversation. We emphasized on reading for the past week and we reviewed the previous lessons and their vocabulary words and the different usage of the connected pronouns with the verbs.

Book 4:

We answered the questions for lesson "A day in student's life", formed new sentences using the new vocabulary words and learned the usage of the favor form of different adjectives "big - bigger, small - smaller"

Have a nice weekend :)

Respectfully,
Sawsan Mahmoud

mileage club!

Islamic Studies

Assalamu Alaykum,

During the past couple of weeks, we covered the third pillar of Islam, Zakah. Students learned, what is emphasized in Zakah, how much money a person is expected to give, and how zakah is different from ordinary charity that Muslims might give.

We also covered the name Allah Is AL-Teef "The Kind". Students learned about the importance of kindness in Islam and how essential it is to practice kindness towards our parents. Some Quranic ayahs and ahadith were addressed in relation to the topic.

Please feel free to contact me if you have any questions or concerns at:

Wajazakum Allah

Together We Learn

Mathematics

We are now working on a chapter that involves some complicated patterns while incorporating math skills. Some students are realizing that they are forgetting how to multiply and divide larger numbers. This is why it is important to keep practicing! You can't forget something because the chapter is over! Please encourage your child to review and practice math using IXL or other math games online.

Language Arts

In language arts we continue to do lots and lots of reading and writing. A few of our fourth graders are very talented creative writers and everyone has shown great improvement in their writing skills. A big thing that they are working on is making their writing appeal to the reader - keep them interested!

Science

Fourth grade science students are in the midst of their studies on chapter 4, plants and animals. They had a quiz this past week and did well. We have covered the process of photosynthesis this past week and will now move on to adaptations. Students had a chance to do an experiment examining how fish float.

Social Studies

For most of the remainder of the year, 4th graders will be learning about the regions of the United States. The first region that we read about was the northeast. They filled in a map and did some research on the internet to find out some interesting facts about the northeastern states. They had fun telling me new facts. 😊

Quran

Dear parents,

In Quran class:

We covered the following material during the past two weeks:-

Group 1: We are still practicing Surah Al Muzamil verse (20)

Group 2: We practiced Surah Al Feel and Al Aser

(Memorizing with Tajweed), Please practice these Surahs with your Son/daughter from the Mushaf and using this site

www.houseofquran.com and make sure that she/he will be ready for the weakly test every Wednesday.

If you have any questions or concerns please email me at
